VOL. 7-4

THE VULCAN ADVOCATE, WEDNESDAY, August 20th, 1919.

Subscription \$1.50 per year.

MIXED FARMS for SALE

We have some excellent mixed farms for sale at reasonable prices. There is good feed and grain on the properties. On account of the general shortage of hay throughout the province it will pay you to investigate these propositions early.

MONEY to LOAN

We have money to loan on First Mortgages and if you need funds to finance your next season's operations we would suggest that you make immediate application.

VULCAN LOCALS.

An investigation is being made into the question of the high cost of shoes at Washington.

Born To Mr. and Mrs. Edwin L. Parsons on Friday, August 15th, a son.

McPherson Bros. start their Big Sale of Damaged Goods on Saturday. See their display in this issue.

Mary Smith of Carmangay, arrived last week and is visiting her parents Mr. and Mrs. John Smith. She will remain several weeks.

Prices as advertised by McPherson Bros. in this issue will not be seen again for some time. Look over their ad. in this issue.

Col. Hugh Clark, M. P. of Kincardine and J. S. Jones manager of the Bank of Montreal at High River were High River visitors at Vulcan on Wednesday.

The Blackie Fair Sports on August 14 was a great success. There were over 1500 present and 150 automobiles were counted on the grounds. The program was a good one.

Mrs. George Thompson of Estevan, Sask. was in Vulcan on Monday last looking after her property interests in this district. Mr. Thompson was a subject of the Influenza last February from which he died.

Dan Klausen, who was with the second Army of Occupation in Germany and who is just returned and on his way to Edmonton to take up land under the Soldiers' Settlement Act, is visiting Mr. F. M. Anderson for a few days.

Few cases of typhoid are now in the village, thanks to the immediate and stringent actions of the health authorities, who cleaned up the town at its first appearance and thereby prevented a further spread of the disease.

The merchants of Vulcan closed their places of business on Saturday night, the last night of the Chautauqua, from 8 to 10 o'clock, to give all an opportunity to see the programme. The stores were afterwards opened up and a good business done up to a late hour.

The Boys' band instruments will be complete this week on the arrival of the balance of their order and actual work will then be commenced to get the organization in tune. They will have an equipment of fifteen pieces, most of which are already on hand. We will expect to have some music real soon.

From the list of attractions already booked the Calgary Stampede will exceed all previous efforts. No pain or expense is being spared to gather both men and beasts from all quarters to have a "thriller" and as this may possibly be the last and best exposition of this kind, the attendance promises to be a record breaker.

NOTICE

I will be absent from my office for about two weeks on a business trip to the Coast and have arranged with Mr. Lincoln of Calgary to look after my office while away.
L. H. Stack

NOTICE

In order to render assistance to farmers desiring work the Alberta Government has completed arrangements with the transportation companies which provides transportation for bona fide farmers to the harvest fields of Manitoba and Saskatchewan at a one cent a mile rate. This transportation will be issued and available between August 1st and 20th. In case a farmer is unable to pay for his own transportation he will be required to furnish a certificate signed by a manager of a bank or by the secretary of his municipality as to his inability to provide for such transportation. Transportation certificates will be available at Calgary, Lethbridge, Medicine Hat, Warner, Pincher Creek, Bow Island, Alton and Carmangay. These arrangements are made for farmers who have suffered the loss of crops only. For further particulars see:

R. E. House, Secy.-Treas.
M. D. of Marquette 157
A. J. Flood, Secy.-Treas.
M. D. of Royal 158

VULCAN LOCALS.

Mr. and Mrs. Tim Bailey and family are leaving shortly for Hoquiam, Wash.

The balance of our men's summer underwear is being closed out at special prices. J. Naismith & Co.

Miss Glidden, who has been in Calgary for the past two weeks returned on Sunday.

Mr. Stanley H. Daines of Calgary is in town for a few days visiting his parents, Mr. and Mrs. H. Daines.

Miss Cassie Davis is going to Nanton and Calgary on her vacation to be gone about two weeks.

H. W. Reeves has disposed of his men's furnishings stock and the same has been shipped to Calgary.

The Wheat Board of Control has recommended a price of \$2.15 per bushel for initial payment, and the Government has approved this price.

These fine showers are doing an immense amount of good to the country and help to relieve the cattle situation.

A. G. Spomer and wife returned on Tuesday evening from Banff where they have been sojourning for a few days.

Mr. and Mrs. T. R. Farrand and family are soon leaving for H. Juan, Wash., where they will reside in the future.

Sterling exchange broke to an absolutely new low record at New York on Aug. 13, demand bills on London falling to \$4.19 to the pound and demoralizing the general exchange market.

The sale of damage by water of McPherson Bros. starts on Saturday and will continue until such stock is disposed of. Farmers should take advantage of this opportunity to get practically new merchandise at very low prices.

Two Vulcan boys, C. Davis and Dick Neil, figured in the winnings at the Gleichen Stampede, Davis taking second money and Neil third. Much favorable comment was expressed on the boys riding. They will probably enter in the Calgary Stampede.

The celebration held at Blackie on Thursday last was a success in every particular. Large crowds were present to witness the various attractions which were pulled off in regular fashion, and the managers of the affair are very well pleased with their efforts. Blackie is a live town when it comes to doing things and doing them right.

ABRAHAM JACOBSON FUNERAL

Abraham Jacobson, brother of the widely known Jacobson brothers of Vulcan, passed away after several months sickness on Sunday morning, August 17th, at the age of forty-two. The deceased homesteaded near Kirkcaldy in 1906, but during the past three years has been farming in Montana. The funeral took place from the Church on Wednesday afternoon, Aug. 20th, with the Rev. A. R. Schrag officiating. A large congregation gathered to pay their respects. The pallbearers were Ole Hansen, Hans Lundgreen, L. L. Hansen, Sam Hansen, Ed Hansen and Mr. Oliver Anderson. There remain to mourn the loss, the father, six brothers, all of the Vulcan district and one sister of Basano. The deceased was of quiet disposition and highly respected by all who knew him. The interment took place in the Vulcan cemetery.

ALDRICK-HIGGINS

The ceremony of marriage between Arthur Aldrick and Clara Higgins, both of Champion, took place at the Vulcan Manse on Tuesday, the 19th and was celebrated by the Rev. A. R. Schrag. The young couple are well known throughout the Champion district.

Water is a scarce commodity these days and the man with a never failing stream of water coursing through his property is lucky. Meanwhile drilling outfits have more orders than they can attend.

Chautauqua

Closing Programme Best of the Week. Notes.

The Chautauqua closed its engagement in Vulcan on Saturday night with perhaps its most interesting programme. The evening was one of distinctly Hawaiian atmosphere consisting of the "Royal Hawaiian" musical five, and an illustrated lecture on Hawaii entitled "Wandering through Paradise" by Mildred Leo Clemens, a cousin of Mark Twain, who held the largest audience of the week for a full hour and a half closely interested in her talk accompanied with remarkably beautiful views illustrative of the country. It is estimated that 1,000 people were present at the entertainment.

The "White Hussars" were up to expectations on Thursday afternoon and evening.

Lieutenant Roselli failed to appear on Friday night, and his place was filled by another. This was a disappointment.

Glen Frank, who was much heralded and whom everybody wanted to hear because of his extended reputation, was unable to come, which was a big disappointment to the people.

Edna Eugenia Lowe instructed the women and some men in how to improve their health and live right on Friday afternoon. The men did not turn out strong, fearing some rebuke to their weaker tendencies.

Dr. Whitfield Ray is much enthused over South America, and imparted some of his enthusiasm to the audience with his address on Thursday afternoon. There is only one "God's spot" in the world according to him and South America is the place. His revelations about this country surely surprised us. The lecture was very interesting but rather lengthy.

CAPT. FERGUSON DEAD

Capt. Dugald Ferguson, old resident of Vulcan, and well known in this district, died in Vancouver, B. C. Aug. 15, at the age of sixty-two years and the body was removed to Nanton for burial in the family lot there Tuesday Aug. 19. He took up a homestead at the age of fifty-nine years and the body was removed to Nanton for burial in the family lot there, alongside of his wife. He took up a homestead here fourteen years ago which he of late sold to Mr. D. Richmond. Since which time he has been residing in Vulcan. The Masonic Order of Vulcan went to Nanton to attend the funeral which was held under the auspices of the Order.

Wm. W. Frautzen of the Nanton Lodge was master of ceremonies. The Church service was conducted by Rev. A. R. Schrag of Vulcan. The pallbearers were Dan Richmond, Peter McIntyre, Dr. Carson, E. M. Clark, F. A. Brown, J. S. Blake. "Cap" leaves to mourn his loss, three brothers, John and Angus in Saskatchewan and Neil in Brooks, Alberta.

DR. STANLEY LEAVES HIGH RIVER

Dr. G. D. Stanley, M. P. P., after a residence of eighteen years in High River, left on Tuesday to take up a permanent residence in Calgary. He was widely known throughout the district and was loathe to leave the town of his adoption where he enjoyed a lucrative practice of his profession, but a serious illness last winter, from which he has not fully recuperated, necessitated his giving up a country practice with its accompanying hardships and seek a practice less severe. Dr. P. I. Backus of Edmonton has taken over his practice in High River. The Doctor will be greatly missed in the district.

Base Ball

Vulcan vs. High River. Good Game at Blackie. Vulcan Wins—5-2

The Vulcan Intermediates, or as they now strictly should be called, the Vulcans, went over to Blackie on Thursday last and played a really good game of ball, such as they are able to play any time if they only half try and get down to business. They took in the High River contingent by a score of 5 to 2 and incidentally ran off with the \$50.00 prize money hung up by the Blackie Sports Committee for the game. High River feels very bad about this as they were fully hoping to get that money to care for the necessary expenses involved in the importation of their battery and other little expenses, which being not forthcoming compelled them to dig down in their own "jeans" to produce the coin. They are not bad sports, however, and are looking for a return game at High River, when they believe they can reverse the trick. A good game was played by both clubs, and was witnessed by a big crowd who seemed to be partial to see High River win, and when those two lone runs of theirs were put across, the crowd nearly burst some of the buttons off their vests in trying to make a noise, which they succeeded in doing very vociferously. It was the one big effort, however, and they had no further occasion for giving vent to their remaining pent up enthusiasm, as no more men crossed the plate. Block pitched for Vulcan and Benton for High River. Let's have them over here. They would draw a good crowd.

CONFERENCE MEETING

The conference meeting called for Saturday, Aug. 9th at the I. O. O. F. Hall, under the auspices of the U. F. A. was not attended by a large crowd but plenty of enthusiasm was manifested by those present. The meeting was primarily intended for a discussion of the problems resulting from the shortage of feed and crops and the solution thereof, and talks were had along these lines. Mr. Bowes, of the Bank of Hamilton here, addressed the meeting relative to the financial conditions and stated that the Banks were maintaining a friendly attitude towards the farmers and would continue to do so as in the past in helping to bridge over the present conditions. Mr. W. D. Spence, of Calgary, the newly elected Secretary of the U. F. A. Political Association, addressed the meeting on the political situation and outlined some of the activities to be undertaken by the U. F. A. in its new field.

PRIZE GARDEN

J. M. Brown, eight miles west and one-half mile north of Vulcan, is much pleased and justly proud of his one and one-half acre garden which he has cultivated this year. The game is now in full effect and will be a pleasure for anyone to look upon who are passing that way or would care to go out and look at it. It is a wonderful garden and very exceptional at this particular season when moisture has been scarce, but Mr. Brown has not resorted to any artificial means of watering the same and has depended solely on the natural precipitation and frequent cultivation for his results. On this small patch he has an abundance of all vegetables sown. Beets, cabbages, beans, turnips, onions, radishes, potatoes, corn, etc. are there in profusion. One small patch of corn now shows over 20,00 ears of sweet corn and is standing about five feet tall, another patch of Indian corn shows an equal number of ears, and both are now being used for the table. All the other vegetables show an equally abundant growth, and all are of unusual size. It is a prize garden and well worth the trip to gaze upon.

You cannot afford to keep that stray animal on your farm. Advertise in this paper and conform with requirements.

QUALITY FIRST

GUERNEY-OXFORD RANGES AND STOVES, one of the oldest yet most up to date lines in Canada is the line we sell.

In ranges we have in stock CHANCELLOR, SENSOR and GOLDEN NUGGET any of which can be supplied with the Gurney-Oxford ECONOMIZER (patented) that saves ONE-FIFTH of the fuel.

In Heaters we have ALBERTA HOT BLAST, OXFORD OAK and TORTOISE, each one designed to meet a special need and all noted for Economy of Fuel and Heat distributing properties.

RANDOM REMARKS

Forest fires in Ontario and Washington are doing great damage to the forests and in this respect Alberta has suffered heavily.

The new Premier of P. E. I., J. H. Bell is a former resident of Ingersoll, Ont. Why not a native born for the highest honors of the province?

During the month of June war taxes collected from all sources amounted to \$4,586,088. The largest source of revenue for the month was tobacco, the excise taxes on which brought \$2,425,650 to the Dominion Treasury.

The sister province of Manitoba will purchase 25,000 head of cattle in Alberta. A buyer has been appointed by the Manitoba Department of Agriculture and he will pay top prices. Farmers will be well advised to not sacrifice their stock.

That the banking and loan companies will assist the bona-fide farmer and stockman in their extremities is very evident. The last thing they want to do is to put a man whose intentions are right, off his farm. To keep the farmers on the farms is the only way the situation can be worked out.

There are numerous buyers interested themselves in farm lands in this district and eagerly waiting a chance to pick up land snags offered by men who have become discouraged owing to the drought. Meanwhile our advice to land owners is not to sell at a sacrifice for values are bound to come back before long. There are no better farming lands on the continent and values are bound to advance with leaps and bounds.

CROP CONDITIONS

The present crop prospects generally throughout the district are not so bad after all as one is forced to believe after a trip around the country when it is to be noticed that a wonderful and really surprising change of outlook is witnessed in the conditions as presented a few weeks ago. Harvesting is going on in all directions and nearly all the farmers of the district are realizing more from their stands than was at all expected, the late rains and perfect growing and ripening weather having produced miraculous results so that all are considerably more agreeable and contented. No bumper crops were to be seen but many will get from ten to twenty bushels to the acre, which to some farmers in foreign sections would be a fair yield. We here, however, are not satisfied with less than about thirty to forty bushels to the acre and anything less than that is considered a failure. Such has become our nature, produced by a few bumper yields, that we're dissatisfied with anything else, and put up a holler if we don't get it every year, but all will learn in the course of time that farming is the same as any other legitimate business, has its ups and downs, is lucky to make both ends meet some years and gets its profits from an occasional big year with bumper returns. Show us the man who has been in this country for ten years and has not made good and we will show you the exception to the general rule. We don't know of any such. Right now the atmosphere surrounding this town is much more agreeable to live in than it was a few weeks ago, and all because there are some smiling faces on the farmers' who a few weeks ago were about ready to dig their own graves. But such is the disposition of a good many who pass through this phase every year and don't get relief until their crops reach the elevators, when for the first time they wake up to the fact that they have something after all, its human nature and a great life it you don't weaken. We will all be in good condition to start right again next year, when, let us hope that "bumper crop", now due, will be forthcoming, and put us all on "easy street"—until we get another failure. Brace up.

BASE BALL CONDITIONS

The fact that it has been deemed wise to disband the professional club in Vulcan for conditions over which we have no control, is hardly an excuse why the lovers of the game should be deprived of the sport altogether and wait for another year until money may be again forthcoming for the re-establishment of another pro-ball team. A local team with an organization and a desire to play the game for the fun there is in it would have good support for the balance of the season, while it would also develop some players for the year to come, when the probabilities are that none but a local nine will be maintained if any ball is to be played here at all. So why not begin to develop the nucleus of a team for next year by getting out players and seeing where they are best fitted to play, in anticipation of the organization of a small league of local clubs of nearby towns for the coming year? Such a plan is not only probable but feasible and possible. Probably may have to be eliminated in Vulcan and possibly in the other towns of the province which have been maintaining such clubs this season and local material may have to be substituted to keep up the game for the future, and, on the whole, is not such an idea the best and more satisfactory one after all? It would at least possess the merits of local favor and incite the interest of local patrons, knowing the game was a product of home materials and playing the game for the sport to be derived from it. A substantial league of about six towns within motor travel of each other could be formulated under agreements to have no salaried players, with the exception perhaps of a battery, if such is thought advisable, and a compact could be arrived at with a regular schedule of

games which could be finished with little or no cost to merchants or individuals, as a nominal entrance charge could be made which would care for all the expenses to be entailed by a club of this nature, and the results would be satisfactory and pleasant and the interest would be genuine and of a local nature. Such an organization would also be more in keeping and more becoming to a town the size of Vulcan and its neighboring towns and more credit would be attached to the town that would gain the pennant with an aggregation or team composed of its own home boys than could possibly be gained from a team composed of salaried players imported from other parts. The argument against the above proposition has been advanced that we have no suitable material with which to complete a good team. We certainly have as good a lot of players in our midst as is contained in the make-up of any other towns of our size and population and the same would be quickly developed into a fast team if attention of the right kind is given them and they knew that it was expected of them to represent the town and win the games. We certainly would have as good a show as any of the other towns represented in the league if we were all under the one agreement regarding players. Let's work to this end if considered more acceptable to the general public and in order to get some and more general opinions regarding this plan for the future the Advocate invites correspondence from its readers, which will be gladly published to show the wishes of the people in this regard. Let us hear from all who are interested so that the consensus of opinion may be considered.

EDITORIAL NOTES

Wheat at \$2.15 is quite satisfactory to the fellow who has enough of it.

The Prince of Wales will visit the United States after his trip to Alberta. He will be there ten days.

It is estimated that the United Farmers of Ontario will carry 23 seats in the next provincial elections.

Grand Trunk Railway system traffic earnings from Aug. 8 to 14, 1919, \$1,461,258; 1918, \$1,285,064. Increase \$176,194.

Parents of incorrigible boys will be fined when offences are committed. The idea is all right for parents are responsible for the actions of their boys in nine cases out of ten.

When we hear of farmers paying \$80 an acre for irrigation water in Utah and \$150 in Washington we begin to realize how lucky we are to be able to get it for \$40 an acre or less in Southern Alberta.

The class of men appointed by the Dominion Government to the new Board of Commerce is indicative that caution is being exercised. Judge Robson is Chairman of the Board and W. F. O'Connor has been named its second member. Two better men could not be obtained in the Dominion.

Farmers generally are opposed to the fixing of the wheat price and they are persistently making that fact known to the Government. The actual payment of \$1.75 is not enough to enable the farmers to carry over the winter has been made to the Grain Board and there is no doubt but that this phase of the plan will be adjusted, with men like H. W. Wood, President of the U. F. A. on the Board and the farmers may depend on a square deal every time.

The One Big Union has been declared illegal by the Department of Labor and is so regarded by the Government. The Minister of Labor, while at Calgary, told in no uncertain words, what his opinion of the O. B. U. was. And what he said will coincide with the average man of the province.

Henry Ford was awarded 6 cents damages in his libel action against the Chicago Tribune for terming him an ignorant idealist and an anarchist. The accusation is rather strong in view of what he has done in the development of the automobile industry.

The Liberal opposition in Parliament will not have an official head at the September session of Parliament. The election law of the Dominion will not permit a man who is not a member of the house to sit. Wm. McK. King is not a member and could not be elected in time for the session if he had a constituency to run in. The situation is a peculiar one.

THE CRUCIBLE CALLED WAR!

By Richard A. Master

CHAPTER III.

(Continued)

Attempting to absorb some of this lingo convinces me that as far as absorbency is concerned I am in a class with bricks. I can't get hold of a grammar, so a verb and a noun look alike. About all I can say so far is "spuds" and "eggs". Imagine a language, anyhow, wherein not only the nouns but the adjectives as well have number and gender, and if you wish to speak of a knife or house in the relative case it is a he or a she for lack of a neuter gender. And the spelling! Once in a while in the English language one finds a word pronounced as spelled, but so far I've been unable to discover a single French word that sounds as per looks. Bearing all this in mind, where is there any come-back when a voluble Frenchman jabbars at one for fifteen minutes, helping his flow of speech with his arms, hands, ears, shoulders, eyebrows, knees, ankles and toes while he takes fifty-seven different kinds of breath? I've got to where I say "Wee, wee" when they do and thus finally convince them that I don't "compre".

The French roads are the best thing I've been able to discover outside of malaga and madeira wine. Considering the length of time people have been using them they ought to be good. After walking all over France for three months I've decided the roads were originally all cow-paths and all the cows were crazy several hundred years back. For if you wish to travel ten kilometres in a specified direction you actually go thirty kilometres by taking the nearest road. The only straight roads are in mountainous territory—straight up one side and straight down the other. Its laughless the way a road enters a village. It twists and turns as though it didn't want to, invariably making a detour, or the handiest patch of wood will give it cover. Then, after it has crept that close, of a sudden it emerges right in the center of town.

The streets of prosperous towns are flanked with large manure piles and here it is the truth that one picks out the richest man by the size of his pile. After a company has been billeted in a town you can hear one soldier directing another as follows: "I'm at third pile on Ten Street." To find his billet first locate the street boasting ten manure piles and enter the building behind the third pile from either end of the street. It is one or the other. Very simple, eh?

Jolmy.

CHAPTER IV.

All through the winter the Americans hacked trenches in the frozen ground that generally presented a six inch mud top. Then they practiced—standing watches in the furrows they had dug and that had filled to the top with water; relieving each other by battalions and brigades; living on bacon sandwiches and water, pulling off trench raids; attacking by platoons, companies, battalions; and when, in the latter part of March, they took over a "quiet" part of the front line in the Verdun sector, it was to realize everything about their practice was more exhausting and impossible than real warfare.

The mud was the only thing in the real game that exceeded expectations. As they slipped up a communication trench to their position in line, slithering and sliding on the wet duckboards where duckboards had been provided, lending a hand in extricating those who sank in to their knees, accidentally knocking off an occasional helmet that immediately sank beneath the surface of the sea of ooze around their feet, crouching low at the whistle of an .88 shell, standing stock still as a line of statues when the radiance of a flare or star-shell lighted surrounding terrain in a ghastly white illumination, they were altogether the happiest, most excited, exuberant command of men that ever entered a front line trench in France. Even in the blackness of the night one could catch the glint of their wide open, glistening eyes, and the tingling, barely suppressed excitement was easily communicated to the Frenchmen they relieved, who shook their heads knowingly and with a bit of misgiving. For the intrepid spirit of the Americans was known all through France and the French were dubious about this quality in their brothers-in-arms which they called foolhardy impulsiveness. Es-

OPPORTUNITY for Retail Merchants

THE next few years will mark a tremendous change in the business of retailing.

Motor Transportation, now reduced to a low-cost basis, gives retailers a great opportunity for business growth because it widens their trading area.

The Ford One-Ton Truck makes available this opportunity. It is Motor Transportation at low cost—low first cost, low maintenance cost, low operating cost.

A small outlay will motorize

your deliveries and open to you the opportunity for business expansion.

Complete Trucks—Two Standard Bodies

Ordinary hauling and delivery work can be best adapted to two standard types—the Stake Body and the Express Body.

These two body types are kept in stock ready for immediate delivery. They insure the maximum efficiency from the Ford Truck.

Both types have the Enclosed Cab with the two-way windshield which gives the driver proper protection from the weather.

See these complete trucks. Seize the opportunity to enlarge your field of business. Let us solve your delivery problem.

Price (Chassis only) \$780 f.o.b. Ford, Ont.

Standard Ford Bodies extra. Get our prices

W. F. Jennejohn, Agent.

THE ADVOCATE

CALLS ATTENTION OF ITS PATRONS AND OTHERS TO ITS COMPLETELY EQUIPPED JOB PLANT AND STOCK OF MATERIALS FOR PROMPTLY EXECUTING ALL KINDS OF COMMERCIAL AND PRIVATE PRINTING IN AN UP-TO-DATE AND ATTRACTIVE MANNER.

YOUR SPECIAL FORMS, PHAMPLETS, BOOKLETS, LOOSE-LEAF LEDGER SUPPLIES, COUNTER CHECK BOOKS AS WELL AS ENVELOPES, LETTER HEADS, BILL HEADS, STATEMENTS, WEDDING, VISITING AND BUSINESS CARDS, POSTERS, ETC., CAN BE PROMPTLY AND SATISFACTORILY HANDLED AT A PRICE AGREEABLE TO YOU.

No job is too hard for us—None too large.

Let Us Have Your Work.

FLOOD SALE OF HARDWARE

Owing to the flooding of our basement during the recent rains, a large part of our stock, in fact everything in our basement was more or less damaged. Every article that has received the slightest damage must be disposed of as we positively will not carry any defective or damaged articles in our regular stock. Many articles listed here have suffered in appearance only and are just as serviceable as ever they were. Take paint for instance--The outside of the cans and the labels are stained but the contents are not touched and are just as good as ever, yet you can't buy this paint wholesale to-day at our Sale Price. Hardware Sales do not come often, now is your opportunity to make a dollar go farther than it has since the war started. Sale starts

NORMAL SCHOOLS OPEN LATER

On July first the reciprocal arrangement between the four western provinces for the recognition of teachers' certificates came into effect. Now teachers trained in any of these provinces receive similar standing in the others. This has resulted in a getting together of those responsible for the teacher-training policies in the various districts. In a general way standardization has taken place in the length of the training required for the various certificates, the content of the courses and the basis of admission. Hereafter in all the provinces the period of training will be eight months.

For a long time it has been recognized that the four months' training was entirely inadequate. The course was crowded and hurried and it was possible for very immature young people to get the certificate to teach and still be very indifferently equipped. The lengthened course will mean a more complete equipment. In addition to more detailed courses in the various subjects to be taught there will be greater opportunity for demonstration by the Normal and Practice Staffs, as well as for more practice teaching on the part of the teachers in training. The longer course will cost more money. This will mean that young men and women will go into the work of teaching seriously and with the idea of devoting several years to this type of service. The larger period of training cannot but result in better teachers and a more stable profession.

There are two Normal Schools in Alberta—one at Camrose and the other at Calgary. Both have good buildings and are well staffed. The courses offered are broadly cultural as well as vocational, and are well worth while aside altogether from the certificates to which they lead. It is estimated that the additional four months will increase the cost about one-half, that is that the total expense, exclusive of clothing, will run from \$375. to \$450.

Enrolment for the next session of the Normal Schools, which opens on September second, is taking place. All inquiries concerning admission should be addressed to the Deputy Minister, Department of Education, Edmonton, and those concerning living accommodations to the Principals of the Schools.

NOTICE TO BELGIANS

Special Belgian contingent of 1919.

The following have to notify at once the Consul of Belgium nearest to their residence all information as regards the date of their births, name of village or town in which they were born and their last domiciles in Belgium or the domiciles of their parents in Belgium.

(1) All Belgians or foreigners who were called for the army contingents of 1913, 1914, also all the young men who should normally have reported in 1915, 1916, 1917 and 1918 respectively for the contingent of 1916, 1917, 1918 and 1919.

(2) All Belgians who should have joined the army under the regulations of the orders in Council passed during the war, and who did not comply with same.

The Belgian Consul
R. PIRMEE
Calgary, Alberta.

COMING AGAIN

The guarantors of the Chautauqua, having been successful in obtaining the names of 200 subscribers to purchase three season tickets each, have again closed a contract with the Dominion Chautauqua Co. for next year and the same will be presented here as heretofore and promises now to be an annual event for the people of this district. We are pleased that the same has been accomplished, thus assuring us the attraction for next summer, as we believe that their information and pleasure as well as the rest and relief it affords is well worth the price and little trouble experienced in its presentation.

H. M. McLeod, vice-president of the Canadian National railways, who has just returned to Toronto after an extensive survey of the railway property in western Canada, stated today that he did not think the total wheat crop of Canada would be any less than the yield of last year, and perhaps a little better.

"I would estimate it at 170,000,000 bushels," he stated.

Sir George Foster, acting prime minister, announced on Aug. 18 that the wheat board of control has recommended an initial payment of \$2.15 a bushel to farmers for wheat on the basis of No. 1 northern, Fort William. The government has approved the price.

REID HILL

The regular meeting of the Reid Hill Women's Institute was held at the home of Mrs. Ralph Pritchard on Wednesday, August 6th with 18 members present. At the next meeting the Institute will form a Women's Institute Girls' Club and the President urges that as many mothers as have girls over 12 years of age and are interested in their welfare to be present. Mrs. Jack Marshall was appointed delegate to attend Constituency Conference at Carmangay. Grandma Day was a great success. Five grandmothers were present; Mrs. Heath, Mrs. McIntyre, Mrs. Marshall, Mrs. Newcome and Mrs. Pritchard. Mrs. Heath gave a very interesting reading entitled "If We Only Understood". Mrs. Marshall read a very instructive paper entitled "One Grandma's Message to Coming Grandmas". Grandmas Pritchard, McIntyre and Newcome gave short talks on their past experiences. The next meeting will be held at the home of Mrs. Frank Davis. Wednesday, Sept. 3rd, the Marshall School will entertain the Institute, Miss Clow being teacher.

Mrs. J. Gemalker and two sons Warren and William, of Calgary, are visiting at the home of Mr. and Mrs. M. C. Hawkins.

BUFFALO HILL HINTS

The farmers are wearing smiles that won't come off.

Mr. J. R. Duguid is drilling a well for Mr. G. C. House.

Union Jack and Sunset Valley schools re-opened on Monday last.

Mr. F. Bell recovered a horse that had been missing for over a year.

Mr. Wm. Marshall received a hail stone on the point of his nose on Wednesday last.

We hear that Mr. and Mrs. M. Gooch received a warm if noisy reception on Saturday evening.

Mr. J. Maloney, a well known resident of the district a few years ago, is now in the vicinity once more.

The rains which would have been so beneficial earlier in the season seem to be coming our way now.

A meeting of the committee for the Marquis School Fair was held at the Lake McGregor school on Saturday.

The rain which we got during the past week is certainly doing the crops a lot of good although they are so far along in many cases as to be ready for harvest.

A very severe hail storm passed through the district on Wednesday last, rendering some of the best crops almost worthless. A number of windows were broken as some of the hail stones were as large as hen's eggs.

The Buffalo School picnic which took place on Friday last was a great success. The sports started with foot-racing and other contests. After supper the large crowd was thrilled and delighted at the exhibition of steer riding. A dance followed the sports.

The lamb and pig which were donated toward prizes for the school garden by Messrs. Meehan and Duguid were raffled off. Misses Emily House and Marguerite Speer sold the tickets. Mr. C. A. Munro won the lamb and Miss N. Forsythe, the pig. The proceeds of the raffle amounted to \$30.20.

GOLDEN RULE INSTITUTE NEWS

The Golden Rule Women's Institute met with Mrs. W. C. Fry on Thursday, Aug. 7th. A fair attendance was recorded. After the routine business had been disposed of Mrs. W. K. Anderson, of Champion delivered an address entitled "A Civilian's Trip from England to France in War Time" which was enjoyed and appreciated by everyone present. It is hoped that at some future date Mrs. Anderson will favor us with a continuation of her experiences overseas.

The next meeting will be held on August 21st at the home of Mrs. Wm. Wannop. All visitors welcome at any time.

POSSIBLY CHANGED HANDS

The Calgary Petroleum Products Co. have evidently entered into definite negotiations with the Imperial Oil Co. as noticed by the new tank wagons and four horse teams and motor trucks seen delivering the oil with the Imperial Oil Co.'s signs. If from the wells. All are embellished such is true the oil fields will not suffer from lack of operations and progressiveness and we predict big extension of operations before long.

EFFECT OF PROHIBITION ON
NEW YORK'S "GREAT
WHITE WAY"

The following are the words of a man who runs a "lobster palace" adjacent to Broadway, controls the food and drink privileges of two roof shows and operates a hotel by the sea:

"There can not be a reasonable doubt that the ordinary cafe of prohibition days is done. There is a possibility that some substitute stimulus for liquor will be found, but I doubt it. We are seeking that now. But, generally speaking, it was and is the stimulative effect of liquor that made the cabaret and the dance attractive. Not that sober persons do not dance, but the difference between those who do and those who don't means financial ruin to the average Broadway cafe with an overhead expense equal, or nearly so, to that previous to July 1. It costs as much to serve lemonade as it does to serve a highball. The difference is that while a highball calls for several drinks, one lemonade is usually enough.

"Our hotel is hit hard, but an even better example perhaps is that of the Hotel near Times Square. The bar, which includes the service-bar catering to the several drinking rooms and roof garden of this hotel, did an average business previous to July 1 of \$3,200 a day. The net profit on this business in the course of a year averaged \$600,000. The same bar now does between \$200 and \$250 worth of business daily. The profit per dollar is less. It means that the manager of this hotel, if its normal earnings are to be maintained, must find some way to make his eight hundred rooms account for approximately a \$600,000 deficit. The remedy nearest at hand is a raise of food- and room-rates. But the public will have to be educated to that, and the great majority of the traveling public believes it is paying enough now."

WHO IS TO BLAME

The farmer blames the "protected interests" for the high cost of living and the "protected interests" claim the high price of wheat sets the standard for the high cost of living. Meanwhile the consumer is told there is no prospect of lower prices and continues to foot the bill. 'Twas ever thus.

Your bill heads, letter heads and statements at the Advocate. Let us make them up for you.

Ten thousand guineas was paid to a Scottish breeder for a Shorthorn bull.

COMMUNICATION

"SIC 'EM"

"Your timely article on Base Ball in last week's issue is so much in accord with the sentiment that inspired my last letter to you of two weeks ago, that I am inclined to put another spoke in the wheel of progress to the goal desired; namely, a good organization for amateur sport in Vulcan. "The day of the season for 'Play ball' are fast waning, but the days are approaching for winter sports, curling and hockey. The first needs no boosting for it is essentially an amateur game and there are enough curlers here to warrant the continuance of its popularity. The latter, hockey, needs two things; a place to play and an organization of hockey enthusiasts. Given the latter the former will follow. Following your suggestion, the first aim of the organization is to encourage home talent which we admittedly have and to assure them they can get anything they need through the village council. You will notice that I say encourage not augment, for augmentation would mean the importation of paid players, and many would prefer to see our boys go up against a better home team, as we found in Nanton, and even if defeated, create the uplifting of the town spirit for good, (even if not victorious) clean sport, just because they are our boys. You have begun a good work along these lines. Keep it up. I am sure many of our amateurs would rather face the pitcher or the puck than face the writing of a letter to your paper, but they have their place. We old timers can only crank the automobile but it takes someone to do this in order that the machine may be started. We hear a lot about Community Spirit at our Chautauquas but we will never attain the results aimed at if we 'let George do it'. Don't let the matter rest in your paper. If you want good, clean, amateur sport, 'Sic 'EM' and keep at 'em until you get the whole of Vulcan in line for the object.

Old Timer

U. S. RAILROADERS DEMANDS

Two million railroad workers, backed by the other millions of the American Federation of Labor, serve notice on Congress and on the country that they "are in no mood to brook the return" of the railroads to private control, and propose a plan of government ownership whereby railroad employees will share both in profits and operation. The railroad Brotherhood's plan would eliminate private capital from the railroad business, and its sponsors say "it marks the step by which organized labor passes from demands for wage increases to demands that the system of profits in industry be overhauled."

The chief provisions of the Plumb plan as presented in the bill introduced in the House by Congressman Sims (Dem., Tenn.), are these:

1. Purchase by the Government of all the railroad systems on valuations determined finally by the courts.
2. Operation by a directorate of fifteen, five to be chosen by the President, to represent the public, five to be elected by the operating officials and five by the classified employees.
3. Equal division of surplus, after paying fixed charges and operating costs between the public and the employees.
4. Automatic reduction of rates when the employees' share of the surplus is more than 5 per cent. of the gross operating revenue.
5. Regional operation of the lines as a unified system.
6. Building of extensions at expense of the communities benefited, in proportion to the benefit.
7. Payment for the roads made through government bonds bearing 4 per cent. interest.

REID HILL NEWS

Mrs. Matthews of High River is spending a few days with her daughter, Mrs. J. E. Cowell.

Mr. and Mrs. S. Findland motored to High River on Sunday last.

Misses Annie and Elma Clifford are spending a part of their vacation in High River, the guests of Miss Marjorie Matthews.

Born—At the Maternity Home, Vulcan, on July 25th to Mr. and Mrs. J. E. Cowell, a daughter.

The heavy rain has been a wonderful help throughout the district in the way of feed.

The nation that was responsible for the sinking of the Lusitania should be ostracized for many years socially, commercially and otherwise.

"The Exclusive Dry Goods & Men's Wear Store"

"For Him"

The pride of Overland owners is the result of Overland performance. Owners tell their friends of their satisfaction in driving it and thus the car's reputation grows. This public appreciation has always been our sole aim. Today the Overland Motor Car reflects the best of our great engineering experience and production facilities. The sales of the Model 90 shown here now number many thousand of cars, and are constantly increasing.

Overland Model 90 Touring \$1990. Overland Model 90 Touring \$1990. Willys-Knight Four Touring \$2575. J. & B. West Touring \$2425.
